### ABSTRACT

This guide, which was written for general marketing instructors in Ohio, lists nearly 450 resources for use in conjunction with the Administrative/Office Technology Occupational Competency Analysis Profile. The texts, workbooks, modules, software, videos, and learning activities packets listed are categorized by the following topics: communications, office technology, financial functions, records management, support tasks, and professionalism. Among the competencies for which resource materials are listed are the following: apply communication skills; compose documents; prepare oral presentations; communicate with international and culturally diverse organizations; perform computer operating system, word processing, spreadsheet, database, computer business graphics, desktop publishing, transcription machine functions; and telecommunications functions; apply mathematical skills; perform accounting, payroll, and banking functions; file/retrieve documents and integrated media; perform telephone duties; receive visitors; perform scheduling functions; coordinate meeting and function arrangements; generate minutes; coordinate domestic and international travel plans; perform mail functions; research information; maintain employee records; maintain office supplies, equipment, and software; improve office productivity; demonstrate office ethics; help the employing organization achieve its goals; and participate in professional development activities. The following information is provided for each resource material: publication type, title, author, publication date, publisher. Concluding the guide are the addresses of the 11 publishers of the materials cited. (MN)
